SUMMARY

I am a full-stack web developer who has recently graduated from Springboard's intensive program. I am passionate about continuous learning and taking on new challenges in the software development industry.

EXPERIENCE

Website Developer & Designer Venelt Studio | October 2023 – Present

- Developed websites, web applications, and RESTful APIs utilizing NextJS (React) and Express
- Deployed and hosted websites on Vercel, AWS, and Google Cloud platforms
- Collaborated with clients to design website prototypes in Figma, emphasizing UX and user flow, ensuring alignment with project requirements

Springboard Software Eng. Springboard | March 2023 – March 2024

Outreach Response Team DHEC | June 2022 – December 2022

- Filed, formatted, and submitted vaccination records to vaccine database of South Carolina
- Confirmed patient eligibility for vaccination with CDC standing guidelines against vaccination records
- Maintained standards of infection control as directed by the CDC for Influenza, COVID-19, and Monkeypox
- Contributed to community outreach efforts aimed at helping populations in need in upstate South Carolina

Pharmacy Technician Publix Pharmacy | September 2021 - April 2022

- Proficiently identified medication interactions and dispensed medications to patients promptly
- Processed prior authorizations from physicians
- Resolved insurance rejections and mediated between insurance providers and
- Maintained excellence in patient service and always assisted to full capacity
